# Course Design

Each Student has Some Strengths (S) and Some Weaknesses (W). Course is based on this S/W analysis while adding more Strengths side by side.

## Copies are Checked by Veterans

They identify S/W features of every student

## Each Student has a file

His/Her S/W Progress Report is monitored regularly

## Mentors See those Reports

Mentors Suggest Course Correction

We are giving personalized attention to every student to Augment their S features and Minimize their W features while adding many more crucial novel S features simultaneously.

**Do Not Leave the Dots. Connect them. You Will Write Better.**
